Read Alberta eBooks

Working with the **Book Publishers Association of Alberta** (BPAA), the Alberta Public Library Services Branch created and support the Read Alberta eBooks platform. This resource launched in February 2017 with over 1,000 eBook titles available for simultaneous use. The collection continues to grow in titles and format.

In January 2019, the **Prairie Indigenous eBook Collection** was added to the repository. The collection contains over 200 titles from publishers in Alberta, Manitoba, and Saskatchewan. The collection increases access to eBooks with Indigenous content and by Indigenous authors.
